We are often asked how we got started selling so many soft drinks. Here in brief is that tale:

We opened in 1984 and in 1990 we started selling a few common Soft drinks in cans for our takeout customers. When people asked about a variety we did not have, we would add it to our line up. One day partly as a joke and partly out of frustration to yet another request, we added every local drink we could find to our small little deli case. That gave us about 40 flavors. When we brought back some Big Red Soda, which we found while on vacation in Texas, the response was enthusiastic and overwhelming. We had no idea so many people had grown up drinking Big Red. Our supply soon ran out and another trip was necessary. This time we brought back other flavors we had not seen locally, stopping at every little town along the way. We grew from taking a car to taking trailers, then trucks with trailers as we crisscrossed the country. We continue to add old favorites and new flavors with every trip. We usually have 200 or more different sodas in stock. We have everything from Birch Beer and Sarsaparilla to Cheerwine and R.C. Cola. So come take a sip down memory lane with us, we would love to see you. What's our best seller? - Moxie (an acquired taste!)
